

Invitation for participation in scientific conference

**Living Cultural Heritage -
Safeguarding, Practices, Information
Technologies LCH-2019**

26 - 29 August 2019, Nessebar, Bulgaria

International scientific conference "**Living Cultural Heritage - Safeguarding, Practices, Information Technologies**" (LCH-2019) is dedicated to the 150th anniversary of foundation of Bulgarian Academy of Science. Conference will be held in the frames of the IX World Championship of Folklore "World Folk 2019" organized by the European Association of Folklore Festivals - EAFF.

The forum is aimed to the theme for preservation, presentation and digitization of the cultural heritage and has interdisciplinary nature. The leading purpose is the broad-spectrum interpretation of the concept of **living cultural heritage**. On the one hand - as a phenomenon of the *living cultural practices* and in general - as a *scientifically systematized digital content* of various tangible and intangible values from museums, archives, community centers etc. Sharing

the Bulgarian and foreign experience in specialized and interdisciplinary scientific research, the exchange of modern information technology solutions as well, will be useful in achieving meaningful and technologically renewed *living knowledge* about the cultural heritage.

Research institutes, universities, cultural institutions, organizations are invited in order to exchange experience, ideas and results on the subject of the conference.

Within the LCH 2019, reports of scientists and young specialists from Bulgaria and abroad will be presented: scientific reports - up to 20 min; messages and presentations - up to 10 min. Accompanying events: Training School - Master Class "Kravtsov", exhibitions and more.

The results of the conference will be published in a review online series, registered in NACID (National center for information and documentation website).

Organizers:

- Bulgarian Academy of Science
Institute of ethnology and folklore sciences with Ethnographic Museum
