

## **A Temple of Monarch — The First And Only One In The Entire Universe.**

Forged with pure love and devotion, this sacred space is unlike anything ever created. Today, we make HISTORY as the first and only Temple of Monarch in the world. A creation so unique that it now stands alone in history as the only one of its kind in the entire universe.

### **Why is it Built?**

There are moments in life when gratitude grows too large for words — when love, loyalty, and reverence can no longer remain silent in the heart. For us, that moment arrived when we realized that simply speaking of our devotion to our monarchs was not enough. Their sacrifices, their sleepless nights for the nation, their love for every Bhutanese family — these deserved more than acknowledgement; these deserved a special space that mirrored the depth of our respect. And so, instead of building an office, **we built a sanctuary — A Temple of Monarch.**

This transformation was born entirely from love and devotion, for our monarchs are not merely leaders — they are the guardians of Bhutan's spirit and the stewards of our future. They have carried burdens we may never fully comprehend, yet they bore them with compassion, wisdom, and quiet dignity. Their leadership has shaped a nation where peace is a right, unity is cherished, and identity remains sacred. To honor such greatness with only words felt incomplete — their legacy deserved a space worthy of its depth and meaning.

Every portrait within these walls carries meaning. Whether towering at **21 by 14 feet** or standing quietly in a hidden corner, each frame represents devotion. No size determines significance — every image is a reminder of love, service, and the extraordinary commitment of our monarchs. These portraits are not decoration; they are symbols of loyalty, reminders of humility, and an expressions of our deepest respect.

This temple was created not for public praise, recognition, or attention — but from love. A love for our monarchs, for our country, and for the generations that will walk after us.

And if any portrait has unknowingly been placed in a manner that seems improper, we bow our heads in apology. Any such error is unintended — never disrespectful and so we will amend it immediately.

**This temple serves as a symbol of our love, respect, devotion, loyalty and gratitude to our monarchs.**
